

Creston National Fish Hatchery

Creston National Fish Hatchery Fish Ecology Fun Day June 1, 2006

The Creston National Fish and Wildlife Center would like to invite your 3rd grade classes to Fish Ecology Fun Day on Thursday June 1st.

This year to promote National Fishing and Boating Week, June 3-11, 2006, we will invite 3rd graders from local schools to visit our Center to see displays and learning stations which will include: fish anatomy and identification; fish habitat and handling, hatchery tours, and a few fun fishing games to play.

We invite you to bring a sack lunch and we will be serving refreshments and treats throughout the day.

We are in need of children's art work to display at our hatchery. Attached is information about an art contest. There will be a 1st place prize for one student from each school. The art work will be on display during our Fish Ecology Fun Day for everyone to see.

Due to the number of children planning to attend we ask that you please call our office at 758-6868 or 758-6869 and talk to Sharon or Evie by May 15th to let us know if your 3rd grade class can attend. This year we will begin at 9:30 a.m and be done by lunch time.
